ANOTHER VISIT EROM THE LIN We learn that on Saturday last the camp a Columbus was favored with another visit from two or three of the Cairo gun boats-the same that have recently been so very attentive to us. They came within a couple of miles of Columbus, and stopping at the band of the giver above commenced feeling for "masked battrise" by throwing random shells. Eighteen of these missiles were thrown at intervals of about ten minn'es, one of which is alleged to have struck not far from Gen. Porg's headquarters, and the others seem to have been directed toward Gen. Thompson's camp of the Missouri shore. After exercising theh butteries some three hours, without damage to any one, these boats retreated toward their

rendezvous, not a single gun on our side resounding to their feint. it seems to us that a couple of masked o submerine batteries, placed four or five miles shove on the river would be a sufficient remedy for the insolence of the enemy as shown it these occusional forays. Suppose our military
